Policies for São Paulo City Centre

ReVisions Project: São Paulo International Symposium

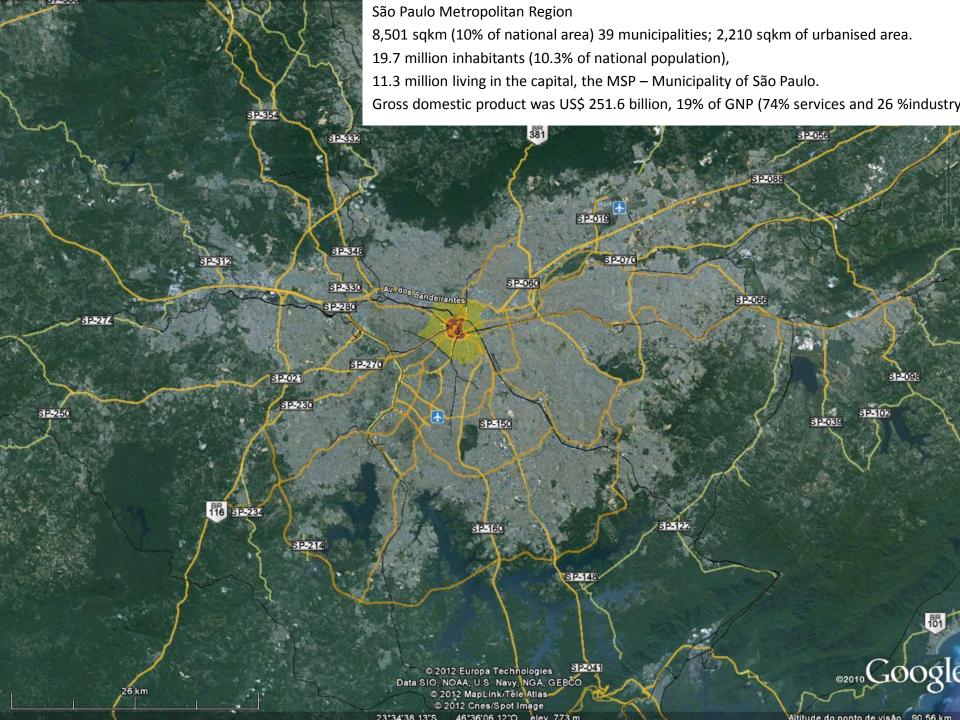

Prof. Dr. Eduardo A. C. Nobre FAUUSP 19th June 2012

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.uso.bu/fou

- 1. São Paulo Metropolitan Region data
- 2. São Paulo City Centre development and decline
- 3. Policies for the Central Area
- 4. Final considerations

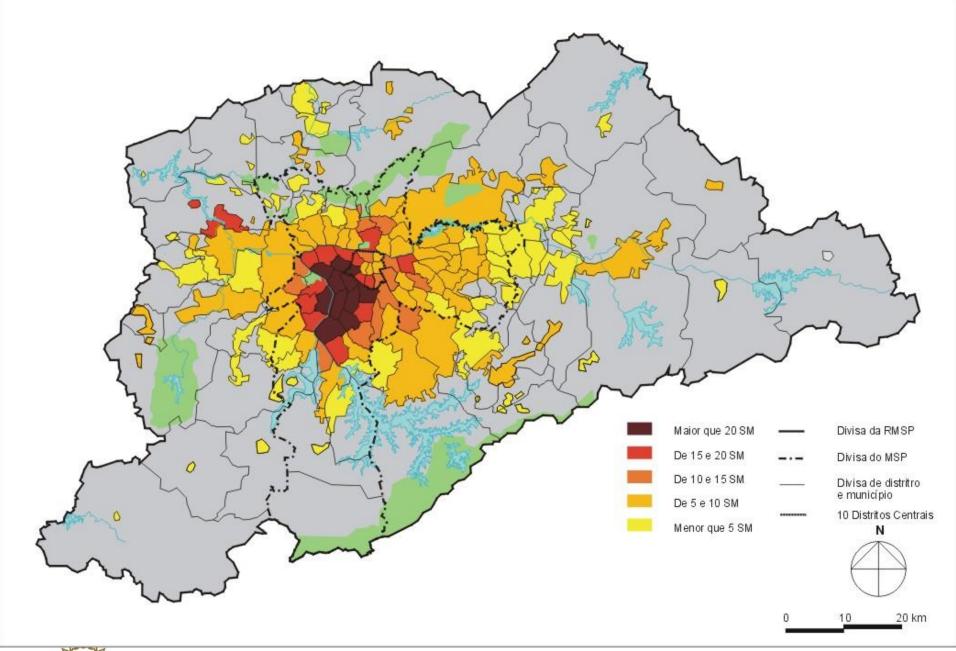

Universidade de São Paulo

Faculdade de Arquitetura e Urbanismo

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bu/fou

- The city was founded in 1554
- Until the mid 19th century, no economic interest (subsistence economy).
- From the 19th century on, explosive growth due to economic cycles:
 - 1870s to 1930s coffee exportation
 - 1930s 1950s industrialisation
 - 1950s 1970s major car manufacturing satellite (Ford, GM and VW)
 - 1970s on tertiary metropolis
- This growth has resulted on an uneven and segregated urban space:
 - The middle and high incomes strata occupied the areas provided with jobs, accessibility, infrastructure and services
 - The low income sectors have been "evicted" to less privileged area considering these factors on a great level of
 precariousness and inadequate living conditions in central area slums, favelas and peripheral illegal settlements.

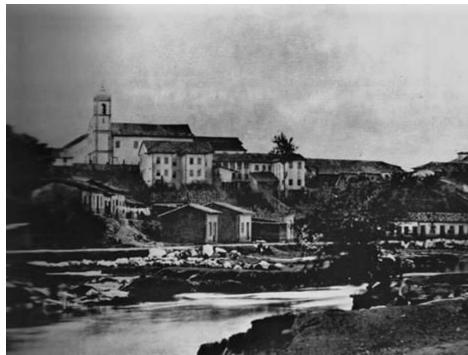

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932

http://www.usp.br/fau

2. São Paulo City Centre development and "decline"

From 1554 until mid 19th century
 → little economic importance →
 the city was concentrated around
 the Historical Hill (the foundation site)

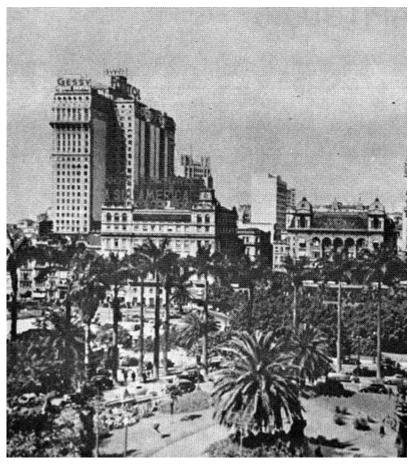

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bs/fou

Coffee economy (1860s-1930s) heyday
 of the City Centre → the rammed earth
 village was turned into an European
 style city to host the ruling elite

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.uso.bu/fou

 Industrialisation (from the 1930s to the 1970s) a redevelopment process had occurred, following North American influence

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bs/fou

 Since the 1960s → "urban decline" process has started → elite moved away from the central area, leaving it for the lower income strata.

Universidade de São Paulo

Faculdade de Arquitetura e Urbanismo

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.uso.bu/fou

- Then the elite commercial activities also moved away from the City Centre, first to Paulista Avenue (1950s), then to Faria Lima (1970s) and later to the Pinheiros River margins (1990s).
- Likewise, public and private investments have followed the elite, upgrading the Southwest Zone.

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bs/fou

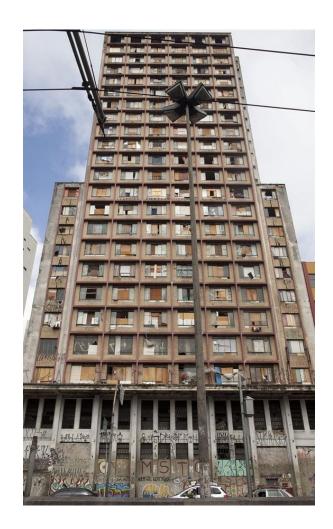

- From 1980 to 2000, the ten inner districts lost together about 180 thousand residents, resulting in almost 50 thousand vacant buildings (22% of vacancy rate against 14.5% of the city average).
- Meanwhile, districts and municipalities located in environmentally protected areas have gained 360,000 inhabitants, with a growth rate over 6% per year, far higher than the average of the metropolis (1.6%).

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bu/fou

- Likewise, public and private investment concentration in the Southwest Zone resulted in 600 thousand square meters of vacant commercial floor area in the City Centre.
- With the vacancy came the abandonment.
- Some buildings have more than 15
 years in municipal property tax debts,
 sometimes higher than their market
 value.
- In the late 1990s, homeless movements started to occupy some of these empty buildings

2.1 São Paulo City Centre today

- Area \rightarrow City Centre 4.4 sqkm (0.2%)*
- Central Area 33 sqkm (1.6%)*
- Population → 80.5 thousand (0.4%*); 477 thousand (2.4%)
 - 145 inhabitants per hectare (58.7 inhabitants/acre)
 - 20% children, 70% adults and 10% elderly
 - Income per capita R\$ 1,950 (£610 or ¥6,030)
- Jobs → 370 thousand (4%**) (just City Centre)
 - 820 jobs per hectare
 - 14% of the Financial**
 - 12% of the Public Sector**
 - 10% of the Specialised Services**
- Trips → 1.4 million daily (just City Centre)
 - 61% public transport (37%**)
 - 19% private transport (29%**)
 - 20% non motorised (34%**)

- * on metropolitan urbanised area
- ** on the Metropolitan Region figures

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bs/fcu

3. Policies and plans for the City Centre

- In the last thirty years, four plans were developed for the city centre
- From the 1975 to 2002, the City Centre plans had a strong emphasis on issues of historical preservation and traffic calming resulting in:
 - 1. The expropriation and restoration of Martinelli building, a major symbolic milestone, to home several municipal departments, expelling slum dwellers from there.
 - 2. The creation of a 7 km of pedestrian walks and 4 km of selective traffic pathways.
 - 3. The construction of a new Anhagabaú Valley Park over the main North-South spine tunnel
 - 4. The transference of the City Hall and its departments back to the City Centre
- However, up to that time, the attempts to bring real estate market back had few results comparing to other Business Districts though new planning rules allowed the biggest floor area ratio in the city (12:1 whereas the maximum in other CBDs reach only 4:1)

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bs/fou

3.1 The Ação Centro Program

- In 2001, the Suplicy administration (2001-2005) drafted the "Plano Reconstruir o Centro" (Rebuild the Center Plan) in order to revitalize the central districts
- Considering the accessibility of central area, its abandonment and underutilization, this plan was based on functional and social diversity, emphasizing the activities of housing, employment, culture, leisure, education and representation in this region.
- In 2003 EMURB Municipal Urbanization Company launched the Central Area Rehabilitation Program - Ação Centro, based in that plan and financed by IDB – Inter-American Development Bank.
- The program consisted of 5 main lines:
 - 1. Reversal of property devaluation of and recovery of residential function;
 - 2. Economic and social improvement;
 - 3. Urban environment upgrade;
 - 4. Transportation improvement;
 - 5. Capacity-building of the City public sector.

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bu/fou

- 3.1.1 Reversal of property devaluation of and recovery of residential function:

 Living in the Centre Program
- PAR retrofit for the Residential Leasing Program financed by CEF – Federal Savings Bank;
- Social rental and favela upgrading
- ZEIS 3 Special Zones of Social Interest implementation in 2002 Master Plan
- Definition of property social function on 2002 Master Plan, burdening empty and underutilised buildings by tax increase

3.1.2 Economic and social improvement

- Creation of Selective Incentives Law providing tax benefits to attract new businesses in the Centre;
- Attention to vulnerable groups Project Boracéia Workshop;
- Trade control and monitoring in the street (deterrence of illegal products, professional training programs and income generation, creation of popular shopping, standardization of tents, reorganization Award TPU);
- Program for Rehabilitation of Commercial Streets;
- Installation of state and local government agencies that resulted in the arrival of 11,500 civil servants.

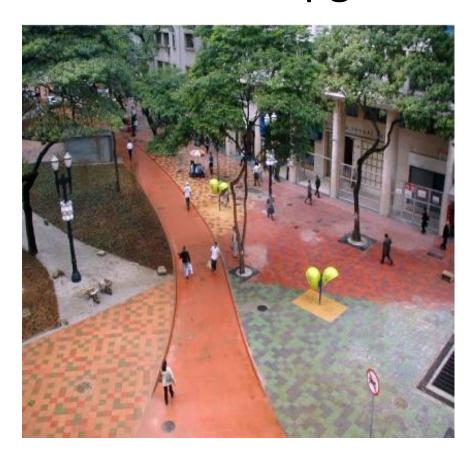

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bu/fou

3.1.3 Urban environment upgrade

- Recovery of public space: Cultural Corridor (Patriarca and Don Jose Gaspar squares, and new lighting in the Cathedral Square;
- Restoration of buildings: Olido Gallery and Municipal Market;
- Recovery of historical heritage: property tax exemption for ten years to restore the facade and building potential transfer.

Rua do Lago, 876 (05508-900) — Caixa Postal 61523 (05424-970) — São Paulo — SP — Brasil Tel (11) 3813 2511 — Fax (11) 3813 2932 http://www.usp.bs/fou

3.1.4 Transportation improvement

- Continuing BRTs construction in the Central Area;
- Study for creation of new underground garages in the centre.

3.1.5 Capacity-building of the Public Sector

- Administrative decentralization;
- Municipal departments re-equipping;
- Creation of the Ação Centro Executive Committee, City Centre Economic and Social Development Forum, Central Area Development Agency.

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bs/fou

3.2 The Nova Luz Project

- The next two administrations (Serra/Kassab (2005-2009) and Kassab (2009-)) redirected the Ação Centro Program, modifying its profile.
- Rather than comprehensive the program focused on 22 blocks around Luz rail station, pejoratively known as "Crackland"
- The rational for it is that it was necessary to focus efforts to reverse the city centre deprivation and once Luz area was rehabilitated it would generate the rehabilitation of its neighbourhood
- Besides, it intended to maximize the investments already made by State Government to bring major cultural facilities to the area

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bs/fou

- The Selective Incentives
 Law was modified to attract
 new companies and
 enterprises focused on
 Information Technology and
 it was used only to this area
- Police force has been used to coerce drug traffic and consumption and also to evict low income dwellers that occupied empty buildings

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.uso.bu/fou

- In 2009, a public competition chose a team to develop an urban project for the region.
- The winning consortium is composed by Brazilian firms and AECOM Technology Corporation (designers of London Olympic Games).
- In 2011, the Consortium presented the urban design based on the concepts of "New Urbanism", but disconnected from the area reality.

Parque Nébias, inspired on the Bryant Park, in New York

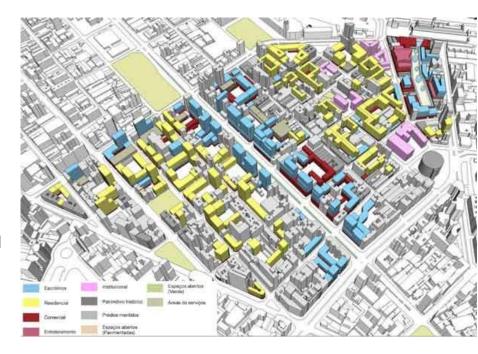

Rua Vitória Boulevard inspired in La Rambla of Barcelona

Rua do Lago, 876 (05508-900) — Caixa Postal 61523 (05424-970) — São Paulo — SP — Brasil Tel (11) 3813 2511 — Fax (11) 3813 2932 http://www.usp.bs/fcau

- In order to make the project feasible, the City Hall enacted in 2009:
 - Law #. 14,918 of May 7, 2009, authorizing the Executive to implement the Grant of Nova Luz Area (PPP).
 - Law # 15,234 of July 1, 2010 establishing the Instruments for Urban Property Social Function Implementation, providing penalties for underutilized properties.
- On the other hand, the City Hall enacted the PPI

 Incentive Installment Program
- This program gives 75% discount of the fine and 100% of interests to encourage the payment of municipal debts in delay.
- The taxpayer may elect to repay the debt in 120 months (10 years).

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bs/fou

4. Final considerations

- Besides the existence of jobs and economic activities in São Paulo Central Area, there is room to accommodate new residential development on the underutilised land and buildings.
- Some policies initiated in 2002 Master Plan aimed to emphasizes housing production on these areas
- This production could relieve some of the peripheral growth pressure.
- However, recent policies focus on economic development, putting residential development aside, on a second place.

Rua do Lago, 876 (05508-900) – Caixa Postal 61523 (05424-970) – São Paulo – SP – Brasil Tel (11) 3813 2511 – Fax (11) 3813 2932 http://www.usp.bs/fou

The residential potential in Central Area

- Vacant residential stock → 47 thousand units
- Vacant commercial stock \rightarrow 600 thousand sqm / 60 sqm = 10 thousand units
- ZEIS 3 zoned areas → around 1 million sqm of plot area → 4 million sqm of potential built up area (FAR 4:1) → 40% for social housing (50 sqm); 40% for lower middle class housing (70 sqm) and 20% for other uses → 25,6 thousand SH and 18 thousand LMCH
- Potential use of the PMCMV Federal Program for financial social and lower middle income housing
- Total possibility for housing → 151 thousand housing units * 3.15 (average persons per household) → 476 thousand inhabitants → that is similar to what the edge city grown in twenty years time → densities from 145 to 290 inhabitants/hectare (117 inhab./acre)
